
HONEY THERAPY

For the love of nature...

Many years of experience in the beekeeping business enabled us to use the beneficial properties of apiculture products in the cosmetics industry.

With the needs of our customers in mind, in developing our HONEY THERAPY branded products we use only natural raw materials such as honey, bee pollen, royal jelly, propolis, plant oils and iodine-bromide salt.

We developed carefully processed textures of products that offer unique fragrance compositions.

For our cosmetics, we use natural ingredients with ECO-CERT certificate.

FORBIDDEN FRUIT

FORBIDDEN FRUIT is a unique series containing bee pollen, many vitamins and micronutrients that nourish your dry and tired skin.

SALT SCRUB 200g

It thoroughly exfoliates external layers of the epidermis. Added beeswax nourishes and softens your skin.

MASSAGE AND SAUNA HONEY 200g

Honey massage is a great way to provide your body with a boost of energy.

By removing corneous epidermis, accelerating lymph and blood circulation, it strengthens blood vessels, removes toxins, improves skin elasticity and makes it smoother.

It relaxes the skin and reduces stress. Intensely regenerating body honey perfectly complements sauna sessions your body loves so much. Honey is a true repository of vitamins that are beneficial for the skin.

Available in 4 scents:

→ ALOE

→ LAVENDER

→ SEA-BUCKTHORN

→ ROSEMARY

NATURAL HONEY AND PROPOLIS SOAPS

A combination of honey, propolis, Shea butter and ecologically certified oils enabled us to develop natural soaps to care for the faces and bodies of your entire family. A delicate note of orange together with the other ingredients make up for a perfect combination.

PROFESSIONAL PRODUCTS

In skin treatment and care, every detail counts: valuable and considered formula of the product, active substances used, advanced technologies, which translates into effects provided by the product.

Also, sensory experiences are important: tempting fragrance, pleasant texture and perfect complement in the form of beautiful appearance of the therapy.

HONEY THERAPY PROFESSIONAL offers a wide range of products for cosmetic procedures.

Available in 4 varieties:

- FORBIDDEN FRUIT
- ORIENTAL ESSENCE
- SWEET APHRODISIAC
- WHITE FANTASY

NATURAL CANDLES

W terapii i pielęgnacji skóry ciała ważny jest absolutnie każdy szczegół: wartośćowa i przemyślana receptura produktu, wykorzystane w nim substancje aktywne, zaawansowane technologie, a co za tym idzie – efekty, jakie zapewnia produkt.

A perfect complement of your home SPA is natural hand-made beeswax candles.

Beeswax is an extremely valuable ingredient. A single bee family makes only ca. 500g of wax per year.

THE BENEFITS OF BEESWAX CANDLES INCLUDE:

- longer burning time,
- negative air ionisation,
- neutralisation of tobacco smoke,
- aromatic microclimate.

GLOSSARY

Almond oil – clear, odourless oil with high fatty acid content. It smoothens and oils the skin, it retains water and facilitates moisture absorption, fostering regeneration of the lipid balance.

Shea butter (ECO-CERT) – contains fatty substances, vitamins E and F. It has a moisturising and oiling effect on the skin, leaving it smooth and soft. It normalises epidermal keratinisation, relieves itching, it is used in allergies, psoriasis and dermatosis.

Jojoba oil (ECO-CERT) – perfectly absorbed by the skin, it strengthens the intercellular cement layer, which prevents the skin from getting dry. It prevents stretch marks which appear e.g. during pregnancy.

Beeswax – used as an ingredient of creams, ointments, soaps, lotions, lip balms, etc. It comes in flakes, natural form or bleached. Added to creams and lotions, it makes them easier to spread and leaves a protective film on the skin.

Honey – widely used in therapeutic skin care products. It enriches the skin with biologically active substances, increasing its firmness, making it softer and smoother. It improves blood flow in skin tissue, which makes the skin more flexible and reduces wrinkles. Honey has disinfecting, cleansing and therapeutic properties, it removes dead skin cells and cleanses pores.

Allantoin – one of the active agents of comfrey root extract. It has a soothing and relieving effect. It moisturises, smoothens, softens the skin and accelerates epidermal regeneration.

Royal jelly – contains the following micro- and macronutrients: potassium, sodium, calcium, phosphorus, magnesium, iron, zinc and sulphur. It has a valuable B vitamin complex as well as vitamins A, E and K. It removes free radicals and acts as an anti-bacterial agent. It restores skin vitality and slows down the aging process.

Bee pollen – is truly rich in nutritious substances and constitutes a perfect combination of many valuable ingredients. As a result, it strengthens health and has a positive influence on the appearance of the skin. It contains all B vitamins as well as vitamins C, D, E, K, beta-carotene and numerous micro- and macronutrients, enzymes, unsaturated fatty acids, proteins and 22 amino acids.

D-pantenol – a biologically active cosmetic component, offering intense stimulation of growth and cellular restoration. It has a soothing effect on damaged skin and mucous membranes, relieves irritation and allergic conditions. It improves the skin moisture, leaves it flexible and pleasing to the touch.

Propolis – is a natural antibiotic agent. It is extremely efficient in eliminating bacteria. It also shows anti-fungal, anti-viral and anti-oxidative action. It has a regenerating, anti-inflammatory effect and restores tissue. It is composed of many valuable compounds, including micro- and macronutrients, flavonoids.

Glycerine – used in cosmetics for years because of its amazing moisturising properties. It naturally protects the epidermis, penetrating intercellular space where it binds water necessary to maintain appropriate hydration balance. It helps to absorb active ingredients through the skin without harming its lipid barrier and actually contributes to the regeneration of protective lipid layer.
